EDUCATIONAL INFORMATION

Currently studying	Ramkhamhaeng University -Faculty of Science -Department of Computer Science
2022-2026 Vocational Certificate 3	Chonburi Technical College -Civil Engineering Branch -GPA : 3.2

WORK EXPERIENCE

June 2024 - February 2025	Kutsuya -Customer Service Representative -Chef
February 2025 - July 2025	Pizza Company -Customer Service Representative
July 2025	GDD Coding School -IT Suport -TA Python and Roblox

Projects

1.Math game app for learning

The task is to design a fun, portable learning app for children that works offline. It is developed using Python, stores questions and answers in a database, includes multiple difficulty levels, and allows users to check their latest scores.

2.Project website shop

Project: E-Commerce Website Development
Role: Full Stack Developer (Team of 3)
Designed and developed both frontend and backend systems, built a user-friendly interface, implemented product and cart management features, and integrated the SQL database.
Technologies: React, HTML, CSS, PHP, SQL

3.Project Calculator

A basic Java console program that performs addition, subtraction, multiplication, and division. It accepts user input via the keyboard, validates the data, prevents errors such as division by zero, and displays the result clearly on the console.

4.Calculate Taxi

Programming Language: C / C++
Format: Console Application
A taxi fare calculation program that computes the total fare based on base fare, travel distance, and traffic delay time. It receives user input, applies conditional and control flow structures, separates calculations into functions, and validates input before displaying the final result.

5.Bot Backup Line

Project Title: Automated File Backup System
A cloud automation system that uses Google Apps Script to receive files via webhook and automatically upload them to Google Drive. It processes JSON data, organizes files, and handles errors and permissions.

SKILLS

HTML	CSS	Figma
PHP	JAVA	Auto Cad
SQL	JavaScript	Photoshop
CPP/C++	Python	Adobe After Effects
